2026 VERSION 1.0

Premium Carry Solutions for Modern Professionals

Enhanced with Subtle, High-Impact Brand Personalisation

Turn smart carry into smart branding

Peak Design sets the standard in premium carry solutions – combining intelligent design, durability, and sustainability.

From award-winning backpacks to modular travel gear and smart accessories, every product is engineered for modern professionals on the move.

Minimalist. Functional. Built to last.
Recognized worldwide, Peak Design stands for innovation and conscious design.

Technical. Refined. Instantly recognizable.
That's the power of Peak Design.

We are proudly:

Bags and backpacks can be personalised with a high-quality thermal print in full colour, allowing detailed logos and brand visuals to be reproduced with precision.

The application ensures a sleek, durable finish while maintaining the refined look of the product.

Key tags and selected components can also be branded with full-colour thermal print, and where technically suitable, enhanced with doming for a subtle three-dimensional effect.

The result is premium, long-lasting brand visibility – integrated naturally into products that are used every day. Flexible quantities. Reliable delivery. Iconic design. Personal impact. Maximum brand visibility.

Peak Design Roller Pro

PREMIUM TRAVEL. REDEFINED.

The Peak Design Roller Pro is a high-performance carry-on designed for modern travel. Successfully launched on Kickstarter, it quickly became one of the most talked-about luggage innovations in its category.

Built for durability and smart organisation, the Roller Pro features a sleek design, premium materials and thoughtful internal layout. Available in Sage, Black and Eclipse, it is engineered for frequent travellers who value performance and style.

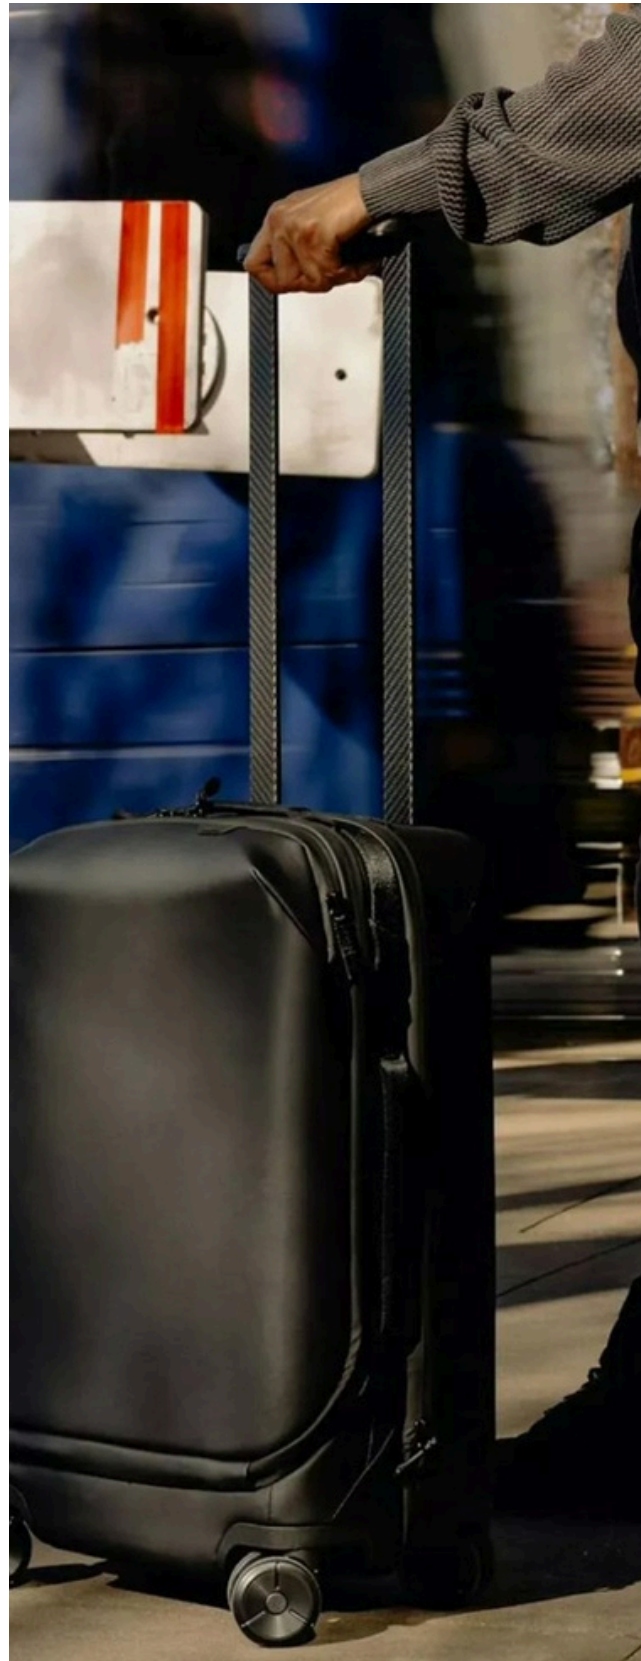

The Peak Design Roller Pro offers multiple branding options:

- Thermal print on the suitcase
- Printed ID Tag
- Optional unprinted Packing Cubes (Small & Medium)

A premium and highly visible branded travel solution.

Key Specifications:

- Premium carry-on design
- Available in Sage, Black and Eclipse
- Optional ID Tag and Packing Cubes
- Thermal print personalisation available

NEW!

Peak Design Duffel

VERSATILE. DURABLE. TRAVEL READY.

The Peak Design Duffel is a premium travel bag designed for flexibility and durability. Available in 35L, 50L, 65L and 80L capacities, it is suitable for short trips, extended travel and heavy-duty transport.

The clean design, weather-resistant construction and multiple carry options make it ideal for both business and leisure travel.

The 35L and 50L versions are available in Black, Coyote, Eclipse and Sage. The 65L comes in Eclipse and Sage, while the 80L is available in Black and Sage.

Branding options include a printed ID Tag and optional unprinted Packing Cubes (Small and Medium). A practical and premium solution for corporate travel programs, incentives or high-end gifts.

Key Specifications:

- Available in 35L, 50L, 65L and 80L
- Weather-resistant, durable construction
- Printed ID Tag option
- Optional Packing Cubes (Small & Medium)

Peak Design Packable Tote

LIGHTWEIGHT. COMPACT. ALWAYS READY.

The Peak Design Packable Tote is a minimalist, ultra-light bag designed for everyday convenience. It folds down compactly for easy storage and quickly expands into a strong and durable tote for shopping, commuting or travel use.

Its clean design and practical functionality make it an ideal reusable companion on the go. Available in Sage, Eclipse, Charcoal, Ibis and Ocean.

The Packable Tote can be personalised with a thermal print on the handle, offering a subtle yet effective branding opportunity.

Key Specifications:

- Lightweight and foldable design
- Durable, reusable construction
- Available in 5 colours
- Thermal print personalisation on handle
- d fully customisable with Max Print

NEW!

Peak Design Everyday Totepack 20L

SMART. VERSATILE. EVERYDAY READY.

The Peak Design Everyday Totepack 20L combines the sleek look of a tote with the functionality of a backpack. Designed for daily use and photography, it offers flexible internal organisation, quick side access, and secure storage for a 15" laptop and tablet. The weatherproof recycled shell ensures reliable protection wherever you go.

Personalise the Totepack with a full-colour thermal print to create a premium and practical branded business accessory.

Key Specifications:

- 20L capacity
- Convertible tote and backpack design
- Adjustable FlexFold dividers
- Full-colour thermal print personalisation available

Peak Design Everyday Backpack 30L

SMART ACCESS. EVERYDAY PERFORMANCE.

The Peak Design Everyday Backpack 30L is designed for daily use and photography. With MagLatch top access and dual side UltraZips, your gear is always within easy reach.

Three adjustable FlexFold dividers keep equipment organised and protected, while dedicated compartments fit a 15" laptop (or 16" MacBook Pro), tablet and documents. The 100% recycled 400D weatherproof shell and expandable carry system make it ideal for commuting and travel.

The Everyday Backpack 30L can be personalised with a thermal print, creating a premium and functional branded business accessory.

Key Specifications

- 30L capacity
- MagLatch top access + dual side zips
- 3 FlexFold dividers
- Thermal print personalisation available

Peak Design Travel Backpack 30L

COMPACT. EXPANDABLE. TRAVEL READY.

The Peak Design Travel Backpack 30L is a durable, expandable backpack designed for short trips and daily use. The large rear hatch provides full access for easy packing, while the expandable design adjusts from 27L to 33L to meet international carry-on requirements.

Internal pockets keep essentials organised, and padded sleeves protect your laptop and tablet. With weatherproof UltraZips, hidden external carry straps and a 100% recycled 400D nylon shell with 900D bottom liner, this backpack is built for reliable performance on the move.

The Travel Backpack 30L can be personalised with a thermal print, making it a premium and functional branded travel companion.

Key Specifications

- Expandable 27–33L capacity
- Full rear access opening
- Padded laptop and tablet compartments
- Thermal print personalisation available

Peak Design Everyday Backpack 20L

COMPACT. SMART. EVERYDAY READY.

The Peak Design Everyday Backpack 20L is an iconic backpack designed for daily use and photography. Featuring MagLatch top access and dual weatherproof UltraZips, it provides fast and secure access to your essentials.

Inside, three adjustable FlexFold dividers keep gear organised and protected. Dedicated compartments fit a 15" laptop (or 16" MacBook Pro), tablet and documents. The 100% recycled 400D weatherproof shell, expandable external carry straps and luggage pass-through make it ideal for commuting and travel.

The Everyday Backpack 20L can be personalised with a thermal print, creating a premium and practical branded business accessory.

Key Specifications:

- 20L capacity
- MagLatch top access + dual side UltraZips
- 3 adjustable FlexFold dividers
- Thermal print personalisation available

Peak Design Travel Backpack 45L

ONE BAG. TOTAL FLEXIBILITY.

The Peak Design Travel Backpack 45L is a versatile, expandable carry-on designed for seamless travel. With top, side, front and rear access via weatherproof UltraZips, it offers exceptional accessibility and durability.

The expandable design adjusts from 35L to 45L, meeting international carry-on requirements while providing maximum flexibility for one-bag travel. Padded laptop and tablet sleeves, quick-access pockets and a configurable main compartment ensure organised storage. The 100% recycled 400D weatherproof shell with 900D bottom liner delivers reliable protection wherever you go.

The Travel Backpack 45L can be personalised with a thermal print, making it a premium and highly visible branded travel solution.

Key Specifications:

- Expandable 35–45L capacity
- Multi-access design with UltraZips
- Padded laptop and tablet compartments
- Thermal print personalisation available

Peak Design Packing Cubes (Small & Medium)

SMART ORGANISATION. MAXIMUM EFFICIENCY.

The Peak Design Packing Cubes are designed to optimise space and organisation while travelling. Available in Small and Medium sizes, they help separate and compress clothing or accessories for a more efficient packing experience.

Lightweight, durable and easy to use, they are the perfect addition to the Peak Design Roller Pro and Duffel bags. Available in Eclipse, Charcoal, Ibis and Ocean.

These Packing Cubes are supplied unprinted and are offered as an optional accessory for the Peak Design Roller Pro and Peak Design Duffel range.

Key Specifications:

- Available in Small and Medium
- Space-saving and organised packing
- Lightweight and durable construction
- Optional accessory for Roller Pro and Duffel bags

Peak Design Tech Pouch

SMART STORAGE. INSTANT ACCESS.

The Peak Design Tech Pouch delivers exceptional organisation for cables, daily essentials and travel accessories. Its signature origami-style internal pockets maximise space efficiency, allowing you to store more while keeping everything neatly arranged and easy to access.

Elastic accessory loops keep smaller items like pens, SD cards and batteries within reach, while the wide clamshell opening ensures full visibility. An external zip pocket with cable pass-through enables convenient device charging. The weatherproof 200D recycled nylon canvas shell combines durability with a clean, premium look.

The Tech Pouch can be personalised with a thermal print, making it a practical and high-quality branded travel or tech accessory.

Key Specifications:

- Origami-style internal organisation
- Clamshell opening with full visibility
- Weatherproof 200D recycled nylon shell
- Thermal print personalisation available

Peak Design Wash Pouch

CLEAN DESIGN. SMART ORGANISATION.

The Peak Design Wash Pouch is designed to balance elegant simplicity with thoughtful functionality. Made from durable, weatherproof and easy-to-clean materials, it resists water and stains while maintaining a premium appearance for years.

The wide-opening UltraZip provides full visibility and access, while the pouch stands upright on a counter or hangs from a stowable aluminium hook. Internal TPU-coated mesh pockets, a zip pocket and a magnetically sealed toothbrush pocket keep items organised and hygienic. All internal pockets can be turned inside out for easy cleaning. Fair Trade Certified and 100% carbon neutral.

The Wash Pouch can be personalised with a thermal print, making it a refined and practical branded travel accessory.

Key Specifications:

- Wide-opening UltraZip design
- Multiple internal organisational pockets
- Weatherproof, easy-to-clean materials
- Thermal print personalisation available

Peak Design Wash Pouch Small

COMPACT. CLEAN. TRAVEL READY.

The Peak Design Wash Pouch Small is a streamlined version of the original Wash Pouch, designed for light packers and short trips. Compact yet fully equipped, it offers smart organisation in a space-saving format that fits easily into any bag.

Made from durable, weatherproof and easy-to-clean materials, it resists water and stains for long-lasting performance. The wide-opening UltraZip provides full visibility and access, while the pouch stands upright or hangs from a stowable aluminium hook. Internal TPU-coated mesh pockets and a magnetically sealed toothbrush pocket keep essentials organised and hygienic. Fair Trade Certified and 100% carbon neutral.

The Wash Pouch Small can be personalised with a thermal print, making it a compact and refined branded travel accessory.

Key Specifications:

- Compact design for short trips
- Wide-opening UltraZip access
- Multiple internal organisational pockets
- Thermal print personalisation available

Peak Design ID Tag Black

DISCREET. DURABLE. TRAVEL SMART.

The Peak Design ID Tag Black is a sleek and durable luggage accessory designed for secure identification while travelling. Its minimalist design integrates seamlessly with Peak Design travel bags and suitcases, offering a premium and professional appearance.

Built for long-term use, it provides a reliable and subtle solution for clearly marking luggage.

The ID Tag can be personalised with a thermal print, creating a refined and highly visible branding opportunity for corporate travel, events or premium gifts.

Key Specifications:

- Sleek and durable luggage identification
- Minimalist design in Black
- Compact and travel-friendly format
- Thermal print personalisation available
