

# USB Stick Solid 3.2

Origin  
China

Want to transfer large files at lightning speed? You can with this USB Stick Solid 3.2! This USB is one of the fastest in our range and falls under the USB 3.2 Gen 1 category. It may look like an ordinary USB, but it's actually an SSD. SSDs are generally more robust and can handle larger amounts of data at higher speeds. You can store a vast amount of files, with memory options of 256 GB, 512 GB, or 1 TB. With its sleek design and compact size, it's perfect for easy portability. The USB stick can be personalised with a full colour print or engraving on the front and/or back.
