

# Thule Enroute 23L

Origin  
Cambodia

The Thule EnRoute Backpack 23L is a multipurpose sporty backpack that can quickly go from outdoors to work while keeping laptop and work items separate from personal items. There are special pockets to protect your 15.6" laptop and 10.5" tablet. The soft-lined pocket provides quick access and protection to your phone, sunglasses or other valuables. The organisation panel allows you to keep small accessories, pens and keys easily accessible while the secondary compartment stores a change of clothes, accessories or other personal items and has a zipped TPU pocket that is water-resistant to protect other contents and is opaque for privacy. On the outside there are mesh side pockets to hold a water bottle, power brick or umbrella. The pass-through panel enables you to attach the backpack to rolling luggage for easier travel. Lastly, the sternum strap, padded back panel with airflow channel and side compression straps to balance the load, make it more comfortable to carry. The Thule EnRoute Backpack 23L can be personalised with a thermal print in full colour.
