

Segway Ninebot Kickscooter E2 E II

Origin
China

This Segway Ninebot KickScooter E2 E is the perfect solution for short distances. Inspired by a surf style, its ultra-slim deck and low centre of gravity provide a smooth and stable ride. The E2 E comes with inner hollow tyres of 8.1-inch, to bring a worry-free riding experience: puncture-proof, maintenance free and better shock absorption capability. With a range up to 25 km and a top speed of 20 km/h, the KickScooter E2 E allows you to efficiently navigate your daily commute, whether it's to work, school, or simply for leisure. The KickScooter supports 3 ride modes (standard, sport, and walk) which is clearly displayed on the large dashboard. The 450W motor delivers powerful acceleration and tackles inclines up to 12%! Thanks to its automotive-grade SPFH590 steel frame design, the durability and the break resistance of the E2 Series have significantly improved. In addition, taking advantage of the IPX4 weather-proof design, you can easily handle your riding in various weather conditions. The KickScooter is lightweight (15 kg) and foldable for easy transportation. Personalise your ride with a Max Print and domings on the fenders.
