

Peak Design Packable Tote

Origin
Vietnam

The Peak Design Packable Tote is an ultralight and versatile bag with a capacity of 12 liters. The design weighs only 80 grams and folds down to the size of a deck of cards. The bag consists of a single piece of 100% recycled ripstop 70D nylon for maximum strength without weak seams. A special self-healing coating actively repairs small scratches in the fabric. The Packable Tote is available in the colors Sage, Eclipse, Charcoal, Ibis, and Ocean.

The bag features a robust #5 UltraZip that withstands decades of use. The single shoulder strap includes a sewn-in microfiber pad for extra carrying comfort and grip. During use, the integrated storage bag functions as an internal pocket for a phone or keys. This product is Fair Trade certified and produced entirely carbon neutral.

The Peak Design Packable Tote can be personalized with a subtle thermal print on the handle.
